Centre of Movement School of Performing Arts has hired *Photos By Rowley* to film the recital this year. The recital will be filmed from one vantage point centering the entire stage capturing every part of the performances. If the performance does not fill the entire stage, the video will be zoomed in to allow the performer(s) to be seen closer. The video will be edited to sync with the actual music the dancers are dancing to with some ambient sound from the audience.

Each DVD comes in a plastic DVD case with a printed cover and DVD label that states the event title and date. The DVD will include a scene selection section so you can jump to the performance you would like to view.

DVD Order Form*

Family Name _____

Student Name _____
